

District of North Saanich

2020 Strategic Plan

Approved June 15, 2020

Context

This Strategic Plan sets out Council’s focus and strategic priorities for the 2020-2023 period and beyond. The Plan is based on many studies, plans, and public input opportunities over the years and we believe the Plan’s directions and priorities reflect the overall will of the community we serve.

As we learn more from the community, our staff, Commissions and Committees, the Strategic Plan will be enhanced and modified as required by Council. Over time the Plan will be reviewed and updated to ensure consistency with emerging plans and related strategic decisions. Strategic planning is a Council-driven process that is supported by staff. The Strategic Plan is a working document developed with input from all members of Council and senior management. An initial planning workshop is held early in the first year of a newly elected Council and annual workshops are held to review and update the Plan. The most recent revision of the plan was done by Council at a workshop on January 10, 2020.

The Strategic Plan is an “umbrella policy” that sets the context for all that we do and helps to align specific plans having to do with finance, land use, solid waste, information technology, infrastructure and parks. It also provides the basis for department business plans and annual budget submissions. The Plan focuses on new objectives; however, it is recognized and acknowledged that the vast majority of the District’s resources are devoted to its core services, including infrastructure maintenance, Planning & Community Services, parks, trails, Emergency Services protection, emergency preparedness, financial services, administration, and information management.

North Saanich residents expect their municipal government to take steps to ensure public and environmental safety and health issues are addressed through provision of appropriate infrastructure and services such as water quality, liquid and solid waste management, safe roads, police, fire and emergency medical services. The key challenge in a small municipality with extensive rural areas is to determine the appropriate balance amongst owner provision of services (e.g. septic systems), partnership provision with neighbouring jurisdictions (Saanich Peninsula Unified Sewer Treatment, RCMP, Peninsula Emergency Measures Organization, Panorama Recreation), and direct municipal provision (North Saanich Volunteer Fire Department).
