

DISTRICT OF NORTH SAANICH

COUNCIL POLICY

TITLE: HIGHWAYS- TRUCK ROUTES	NO. COU-110
--------------------------------------	--------------------

BACKGROUND

DESIGNATION OF TRUCK ROUTES IN THE MUNICIPALITY

Such designations cause many problems in the District.

Report of Engineering Services, March 24th, 1984 – Truck Routes

In order to establish truck routes within the District, the road must be identified by by-law so that the routes are enforceable by the R.C.M.P. Once a by-law is prepared for banning trucks from one route, there may be continuous requests and pressure to add and subtract truck routes. Routes would also have to be signed. Service and delivery vehicles normally continue utilizing the roads.

Policy

It is recommended that when a complaint is received, the District contact the trucking firm involved and ask that trucks not use residential streets.
