

DISTRICT OF NORTH SAANICH

COUNCIL POLICY

TITLE: ASSET RETIREMENT OBLIGATION POLICY	NO. COU-152
--------------------------------------------------	--------------------

1.0 POLICY:

The objective of this Policy is to stipulate the accounting treatment for asset retirement obligations (ARO) so that users of the financial report can discern information about these assets, and their end-of-life obligations. The principal issues in accounting for ARO's is the recognition and measurement of these obligations. The District of North Saanich shall account for and report on ARO's in compliance with the Public Sector Accounting Board (PSAB) Handbook, section 3280 ("PS3280").

2.0 LEGISLATION AND APPLICABILITY:

2.1 Existing laws and regulations require public sector entities to take specific actions to retire certain tangible capital assets at the end of their useful lives. This includes activities such as removal of asbestos and retirement of landfills. Other obligations to retire tangible capital assets may arise from contracts or court judgments, or lease arrangements.

2.2 The legal obligation, including obligations created by promises made without formal consideration, associated with retirement of tangible capital assets controlled by the District. The District will be adopting PS3280 starting January 1, 2023.

2.3 Asset retirement obligations result from acquisition, construction, development or normal use of the asset. These obligations are predictable, likely to occur and unavoidable. Asset retirement obligations are separate and distinct from contaminated site liabilities. The liability for contaminated sites is normally resulting from unexpected contamination exceeding the environmental standards. Asset retirement obligations are not necessarily associated with contamination.

3.0 SCOPE:

This Policy applies to all departments, branches, boards and agencies falling within the reporting entity of the District of North Saanich that possess asset retirement obligations including:

- Assets with legal title held by the District.
- Assets controlled by the District.
- Assets that have not been capitalized or recorded as a tangible capital asset for financial statement purposes.
- Leased assets.

EFFECTIVE DATE: March 25, 2024	APPROVED BY: COUNCIL	LAST AMENDMENT: N/A	REF: STAFF REPORT NO. FS-24-004	PAGE 1 of 5
	PREVIOUS POLICY NO. 3015.02			

TITLE: ASSET RETIREMENT OBLIGATION POLICY	NO. COU-152
--------------------------------------------------	--------------------

- Assets under construction.

4.0 DEFINITIONS:

“Asset retirement activities” - include all activities related to an asset retirement obligation. These may include, but are not limited to:

- decommissioning or dismantling a tangible capital asset that was acquired, constructed, developed, or leased;
- remediation of contamination of a tangible capital asset created by its normal use;
- post-retirement activities such as monitoring; and
- constructing other tangible capital assets to perform post-retirement activities.

“Asset retirement cost” - is the estimated amount required to meet the asset retirement obligations.

“Asset retirement obligation” - is a legal obligation associated with the retirement of a tangible capital asset.

“Retirement of a tangible capital asset” - is the permanent removal of a tangible capital asset from service. This term encompasses sale, abandonment, or disposal in some other manner but not its temporary idling.

5.0 POLICY REQUIREMENTS:

5.1 Recognition

A liability will be recognized when, as at the financial reporting date:

- there is a legal obligation to incur retirement costs in relation to a tangible capital asset;
- the past transaction or event giving rise to the liability has occurred;
- it is expected that future economic benefits will be given up; and
- a reasonable estimate of the amount can be made.

A liability for an asset retirement obligation cannot be recognized unless all the criteria above are satisfied.

The estimate of the liability will be based on requirements in existing agreements, contracts, legislation or legally enforceable obligations, and technology expected to be used in asset retirement activities.

The estimate of a liability will include costs directly attributable to asset retirement activities. Costs will include post-retirement operation, maintenance and monitoring that are an integral part of the retirement of the tangible capital asset.

Directly attributable costs will include, but are not limited to, payroll and benefits, equipment and facilities, materials, legal and other professional fees, and overhead costs directly attributable to the asset retirement activity.

EFFECTIVE DATE: March 25, 2024	APPROVED BY: COUNCIL	LAST AMENDMENT: N/A	REF: STAFF REPORT NO. FS-24-004	PAGE 2 of 5
	PREVIOUS POLICY NO. 3015.02			

TITLE: ASSET RETIREMENT OBLIGATION POLICY	NO. COU-152
--------------------------------------------------	--------------------

Upon initial recognition of a liability for an asset retirement obligation, the District will recognize an asset retirement cost by increasing the carrying amount of the related tangible capital asset (or a component thereof) by the same amount as the liability. Where the obligation relates to an asset which is no longer in service, and not providing economic benefit, or to an item not recorded by the District as an asset, the obligation is expensed upon recognition.

The capitalization thresholds applicable to the different asset categories will also be applied to the asset retirement obligations to be recognized within each of those asset categories.

5.2 Subsequent Measurement

The asset retirement costs will be allocated in a rational and systemic manner (straight-line method) over the useful life of the tangible capital asset or a component of the asset.

While the standard suggests using a present value technique, it does not require it for the measurement of the ARO liability. Where the District does not have adequate information regarding the anticipated timing of cash flows to settle an asset retirement obligation, a present value technique will not be applied. Where cash flows are expected to occur in the near term, discounting of the payments would have an insignificant impact on the District’s financial statements. A present value technique will also not be applied in these circumstances.

On an annual basis, the existing asset retirement obligations will be assessed for any changes in expected cost, term to retirement, or any other changes that may impact the estimated obligation. In addition, any new obligations identified will also be assessed.

5.3 Presentation and Disclosure

The liability for asset retirement obligations will be disclosed.

5.4 Roles and Responsibilities of Departments

1. Management’s responsibility for this policy is to review and monitor it as per the PSAB Handbook.
2. Departments are required to:
 - a. Communicate with Finance on retirement obligations, and any changes in asset condition or retirement timelines;
 - b. Assist in the preparation of cost estimates for retirement obligations;
 - c. Inform Finance of any legal or contractual obligations at inception of any such obligation.
3. Corporate Management is to implement the asset retirement obligation policy in accordance with the legal obligation of the Federal and Provincial legislation.

	PREVIOUS POLICY NO. 3015.02			

TITLE: ASSET RETIREMENT OBLIGATION POLICY	NO. COU-152
--------------------------------------------------	--------------------

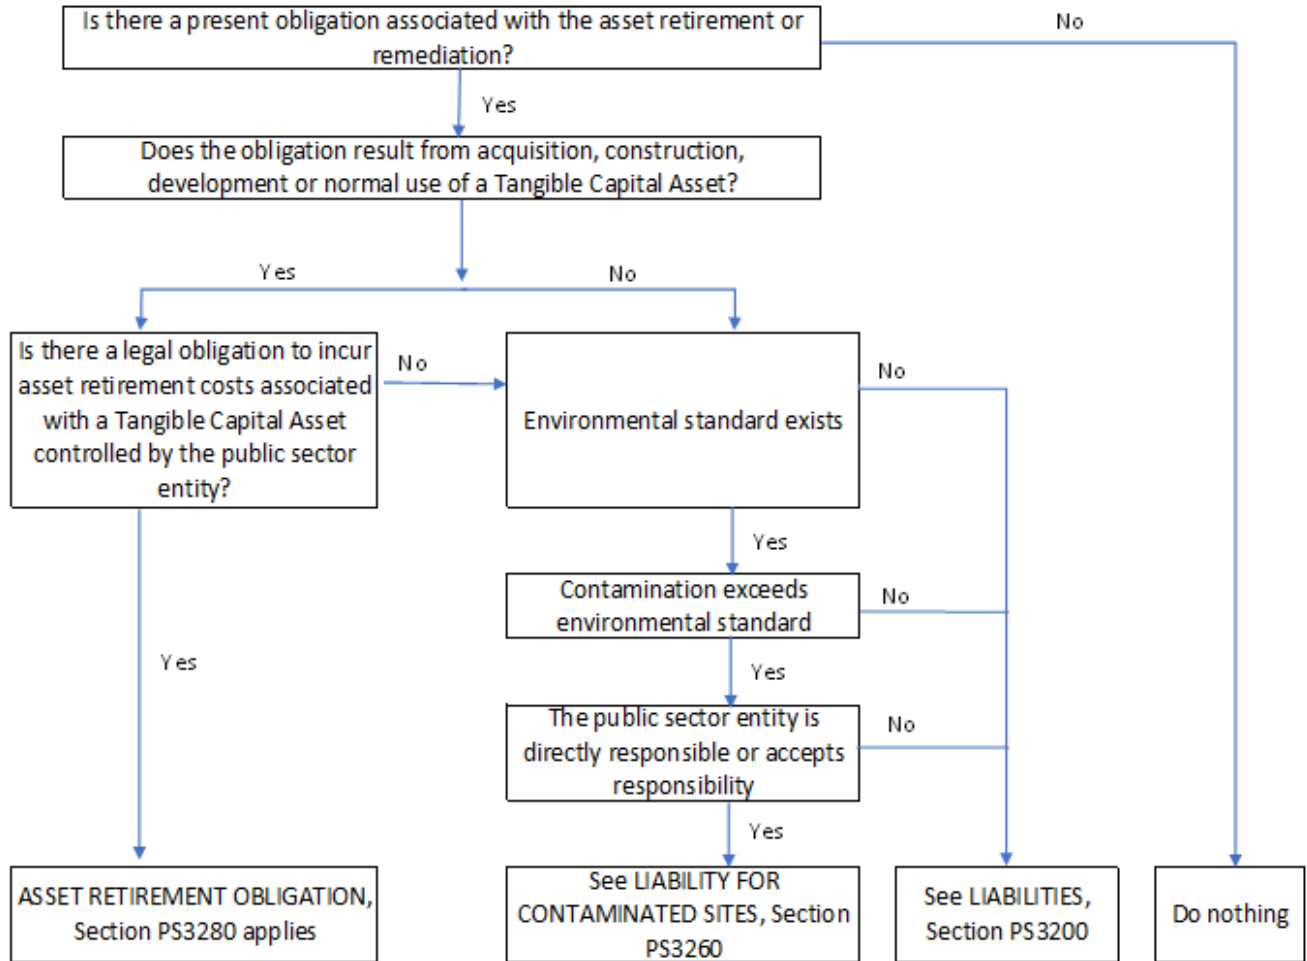

4. Finance is responsible for the development of and adherence to policies for the accounting and reporting of asset retirement obligations in accordance with Public Sector Accounting Board section 3280. This includes responsibility for:

- a. Reporting asset retirement obligations in the financial statements of the District and other statutory financial documents;
- b. Monitoring the application of this Policy;
- c. Managing processes within the Citywide Tangible Capital Asset accounting program;
- d. Investigating issues and working with asset owners to resolve issues.

5. Each department is responsible for providing cost-effective projections of asset retirement obligations, by consulting with engineers, technicians, and other personnel familiar with the assets and conditional assessments, collecting the relevant information required to minimize service cost, and providing the information to the Finance Department for processing.
